

Flying in the clouds, your Instrument Rating.

This is an 8-week course that will give you the knowledge to pass, and understand, your FAA Instrument Rating Knowledge Test on the first attempt. It will also prepare CFI candidates for the Instrument Ground Instructor test. Learning the intricacies of an IFR flight is more than just reading a book and passing a test. Your life depends upon you becoming a knowledgeable, safe, and proficient pilot.

Directions: Located in the Arrivals & Departures Bldg at KSGS Fleming Field, South Saint Paul municipal airport, conference room.

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
